## **AFI INTRODUCES VERSATILE SERIES OF MOLDED POLY DRINK HOLDERS FOR MARINE ENTHUSIASTS**

Four New Stylish Products, Including Unique “Swingout” Models, Hold 1 to 4 Beverages in Style

Whether it’s a steaming cup of coffee, a frosty soda or an icy bottle of water, boaters want their refreshments to stay put through all the rocking and rolling—yet be right at hand when they need them. So for 2006, marine accessories leader AFI is offering an all-new family of versatile Molded Poly Drink Holders designed to look good and work great on any boat.

AFI’s family of Poly Drink Holders are molded from a white polymer material that is durable, corrosion proof and UV resistant — for long-lasting performance and good looks in the marine environment. Each features a spacious design that can accommodate a wide variety of beverages in cans, bottles, cups or mugs. Four models are available: One Cup (Model 67720), Two Cup (Model 67721), One/Two Cup “swingout” (Model 67722) and Two/Four Cup “swingout” (Model 67723). The unique design of AFI’s “swingout” models allows the boater to easily double the size of the holder by “swinging it out” to the opened position, with a flip of the wrist.

Each model can be permanently mounted on any horizontal surface using stainless steel screws. For boaters who prefer to move their drink holders from place to place when cruising, skiing or fishing, AFI provides high-strength suction cups. For added versatility, these holders can be mounted either horizontally or vertically when using the suction cups.

AFI is a business unit of the Actuant Recreational Group, which also includes leading brands Ancor, Marinco, Guest, Nicro and Park Power. For more information about these new Molded Poly Drink Holders, or AFI’s extensive line of marine horns, wiper systems, cabin accoutrements and other accessories for boaters, contact AFI at 2655 Napa Valley Corporate Drive, Napa, CA 94558 • (707) 226-9600
