NEW GUEST® BATTERY SWITCH MODELS FEATURE ERGONOMIC DESIGN, NEW LOOK AND SUPERIOR PERFORMANCE

Guest®, a world leader in battery charging and marine power management products, has made several important enhancements to its popular 2100 Universal Mount Series and Guest Heavy Duty Series battery switches for 2007.

Both of these battery switch lines — proven on a wide variety of powerboats in fresh and saltwater — now feature new ergonomically styled turn knobs that look great and provide easy ON/OFF switching regardless of switch location, sea conditions or the size of your hands. These new switches also feature an updated color scheme and graphics that make it easier than ever to determine the battery switch status at a glance — and look great when used in visible installations.

Both of these switches use the same installation footprint and hole patterns, making these new switches an easy upgrade for vessels with the previous version of Guest switches. The Guest 2100 Universal Mount Series and Guest Heavy Duty Series switches also feature longer stud lengths for improved assembly and easier cable routing.

In the Guest tradition, these new switches are built with heavy-duty copper sweep contacts to ensure positive circuit control. These rugged internal components are protected by a tough, impact resistant polycarbonate housing that is impervious to the elements.

Guest is a Marinco Electrical Group® (MEG) brand. With the combined brand power of Marinco, Ancor, Guest, AFI, Nicro and BEP, the Marinco Electrical Group is the leading supplier of electrical products and accessories to the marine industry. Boat builders specify MEG brand products and MEG brand products are available at leading marine retailers and dealers worldwide.

For more information about the new-and-improved Guest 2100 Universal Mount Series or Guest Heavy Duty Series battery switches for 2007, or any of the company's marine power management products, contact Guest at 2655 Napa Valley Corporate Drive, Napa, CA 94558 • Telephone: (707) 226-9600 • Or visit www.marinco.com. Guest is a business unit of the Actuant Recreational Group, which also includes leading brands AFI, Ancor, BEP Marine, Marinco, Nicro and Park Power.
