MARINCO ELECTRICAL GROUP UNVEILS NEW AFI WINDSHIELD WASHER KIT FOR NEW OR EXISTING WIPER SYSTEMS

Innovative System Is Easy to Install and Even Easier to Use

Marine industry innovator AFI now offers an add-on windshield washer kit that lets boaters clean their vessel's windshield with automotive-style, push-button convenience.

A boat's windshield can often get caked with salt crystals, hard water spots, fish scales, bird droppings, insects and all other manner of water or airborne debris — and traditional wipers sometimes do little more than smear everything on the surface. With the Windshield Washer Kit, the latest development from AFI, however, boaters can clean debris from their windshields with fresh water or automotive wiper fluid, for a clear, streak-free view of what's ahead.

The water/cleaning fluid is pumped through special sprayers attached to the wiper arms themselves, providing full cleaning coverage of even the largest windshields on pilot house vessels, cabin cruisers, express sportfishers and a wide variety of other salt and freshwater boats.

This ingenious product is designed for use with new AFI marine wiper systems as well as existing ones, making it an ideal "do-it-yourself" boat upgrade project. Each kit comes with a water tank and integral 12 volt pump motor, switch, 16 feet of above-deck and below-deck tubing, sprayers, clamps and all the fittings and hardware needed for an easy installation on two wiper arms. Numbered parts and detailed instructions make it easy for any boater to quickly install AFI's Windshield Washer Kit and enjoy a clearer view the very next time on the water. And since it comes from boating leader AFI, this product is designed for years of reliable performance in the harsh marine environment.

For more information about the new AFI Windshield Washer Kit or any of the company's innovative marine products and accessories, contact AFI, a division of the Marinco Electrical Group, at 2655 Napa Valley Corporate Drive, Napa, CA 94558 • (707) 226-9600 • Or visit www.marinco.com.
