

Docking Lights

Marinco is proud to offer a variety of docking lights, including compact flush mount docking lights and a slim line docking light.

The compact flush mount docking lights are ideal for many applications, including Pontoon and Deck boat docking lamps, spreader lamps or rear docking lamps for motor homes. These lights are available with either a flat or convex lens and offered with and without a stainless steel frame.

The slim line docking light is specifically designed for flush mount installations on Pontoon boats. The low profile design and stainless steel mounting bracket makes installation easy.
